What is a Nice Woman?
A man said that his idea of a nice
woman was one who was charmed with
what he said, and paid very little attention
to the things he did.

A nice woman is one who says good-
morning with a smile, and good-night
with a blessing.

A nice woman is one who doesn't
make you suffer at second-hand with
her aches, nor expect you to think there
is but one doctor in the world, and that
he is the one of her choice.

A nice woman is one who is evenly
pleased with the weather—that is, the
temperature does not affect her temper,
and when the skies rain water she does
not shower tears and groans every-
where.

A nice woman is one who can eat
what is set before her, wear the clothes
she possesses, and do both with amia-
bility and without envy.

A nice woman is one who sees the
necessities in you and me and all the rest
of the world, and as she obligates our
faults she makes us try to do it too.

That's the nice woman.

Sugar.

The yearly consumption of sugar in
the United States is about 2,000,000
tons, or 4,000,000,000 pounds, which is
equivalent to about sixty pounds for
every man, woman and child in the
country. The quantity of salt con-
sumed is about 1,900,000 tons, or 2,000,-
000 pounds less than the weight of the
sugar used.

A man does not tire of circuses until
the very last thing.

OFFICE OF

Cripple Creek Gold Tunnel Co.

1017 N. Y. Life Bldg., 171 LaSalle St.

This Company owns a splendid mining property on Bull Hill, in
the Cripple Creek District. It consists of a mining claim and a tun-
nel site equal to more than ten mining claims. Work is being
pushed on this property day and night. Three shifts of men are em-
ployed working eight hours each every twenty-four hours, so that
the work never stops. Up to the present time a tunnel has been
driven upwards of four hundred feet.

We are selling shares at ten cents on the dollar. These shares
must increase in value as the work goes on. (They have doubled in
the last sixty days.) The discovery of one good vein would make
them worth ten times what we are now asking for them. We have
had several encouraging assays and expect soon to be shipping gold
ore. More than a million dollars per month in gold is taken from
mines in the immediate vicinity of this property.

An elaborate prospectus, with map, will be furnished on appli-
cation, and if you desire further information please call at office of
the company, as indicated above.

JOHN R. PARKER, President.
